

FM 2200

PROBABLY THE SMALLEST AVL TERMINAL IN THE WORLD

- Car security/tracking
- Parametrized operation (acquire & send)
- ALARM button (2 inputs)
- Online tracking
- Geo-fence
- Motion sensor
- Low energy consumption in sleep mode

FM2200 is a light terminal with GPS and GSM connectivity, which is able to get device's coordinates and other data and transfer them via GSM network. This device is perfectly suitable for applications where location acquirement of remote objects is needed. So you can track your remote objects (trucks, cars, ships etc.) quickly and easily.

FM2200 is able to perform monitoring on remote objects equipment, such as engine, truck doors' and other digital sensors status.

In case of loosing connection FM2200 can store up to 15000 records, and once the connection is established the device will send stored data via GPRS. So you will not lose your data (coordinates, sensors data and etc.).
